NEWS FROM BOYS IN SERVICE

Mrs. Charles A. Pride

Written March 10 by Sgt. Alfred Dyer of Norway, who is in France:

Am in fine condition and hope you are all the same. I believe that if we make this spring drive a success, the war will be over soon. If the Boche win it will mean about a couple of years more. Their chances are pretty slim, they will have to go some against the Sammies, we have got the best of them at every turn so far. We are back of the lines now and expecting to go back to our old stand soon. Then we go for a 4 day furlough to the summer resort you know in the Alps. It is a place for us to rest up and have a good time in general. It is only for the American troops. Don't know whether I will go or not. I want to go with Louis to your home if it is possible.

March 8.

When you do not hear from me, don't get worried as there are times when I am not able to write. But rest assured I will always do so when I have the opportunity. We have been back in the trenches again, everything, I am glad to say, is first rate. Those that were wounded are doing fine. You can tell Mrs. Swett that Guy's wounds were slight and we expect him back soon with us. I believe we shall be out for a good while this time and going back to our stand to rest up. I hear from Louis regularly, he has gone in the wireless department. I should say that the Boches are about all in, their clothes show it, anyhow.

Reception to Rev. and Mrs. M. O. Baltzer

On Wednesday evening, April 17, a reception to the new pastor of the Congregational church and his wife, Rev. and Mrs. Melbourn O. Baltzer was held in the vestry. The vestry was made homelike by the use of potted plants, art squares and easy chairs. The receiving line included Rev. and Mrs. Baltzer, Mr. and Mrs. H. L. Horne and Mr. and Mrs. E. N. Swett, and were in the small vestry. The ushers were Dr. and Mrs. H. L. Bartlett, Dr. and Mrs. A. W. Easton, Philip P. Stone and Mildred J. Holmes.

The reception was largely attended and a very pleasant evening enjoyed. During the receiving, music was furnished by the High School Mandolin Club. The orchestra was composed of Elizabeth McCreery, piano; Mrs. Don Whitney, Elinor Allen, Ethel Nevins, Marion Lougee, John Sanborn, Arthur Bartlett and Margaret Lougee.

After the receiving a fine musical program was given as follows:

Solos, (a) Springtime, (b) Chorus, (c) Sible and I, (d) Marjorie Barker, (e) In the Garden of Heaven.

Following the musical numbers E. N. Swett called for remarks from Rev. W. C. Rogers of South Paris, Rev. C. G. Miller, D. L. Joslyn, Rev. H. L. Nichols, v. expressed their appreciation at being called upon and offered hearty co-operation in the future church work of the community upon which the new pastor is entering.

Mr. Baltzer was then called upon, who said he felt that he could not add to the hearty words of co-operation, which had already been expressed but felt certain that there never has a time when whole-hearted co-operation was as necessary as now. He expressed his appreciation for the many expressions of welcome extended to them and was pleased to be welcomed into the community life of Norway.

A social hour followed the program and refreshments of punch and fancy cakes were served in charge of Mrs. Fred D. Hosmer, Mrs. Charles S. Libby, Helen Holmes, Mrs. Nettie Nevers, Mrs. Edith Rich.

Mr. Baltzer entered upon his duties here last week and preached his first sermon as pastor of the Congregational church Sunday, taking for his subject, "The Mountain and the Valley, or the Influence of Environment." The services were largely attended.

Rev. M. O. Baltzer was born in Nova Scotia 35 years ago. When a small boy his parents moved to the states, where he has since resided. Mr. Baltzer graduated from Bangor Theological Seminary in 1905 and Bowdoin 1909. He received the first degree after a course at the Harvard Divinity School and became assistant pastor to Rev. Frederick B. Robinson at Phillips Congregational church, South Boston.

Believing the country a fruitful field for christian work he accepted a pastorate at Lewiston and served the Congregational church faithfully, giving valuable experience to the community which will never be forgotten. Two years and a half ago he accepted the call to Mexico. During that time the society has prospered and many reforms were suggested and applied which have not only proved helpful to the church membership, but to the community at large. He is a Free Mason.

Mrs. Baltzer is a teacher by training and profession. Has been principal of the schools at Bucksport and Cherryfield and was instructor in the upper grammar grades in Mexico. She contemplates active work in the W. O. T. U., Red Cross and other organizations. A class in the Sunday School for young ladies has already been under her instruction and she will devote time to the Christian Endeavor, Missionary Societies and other church auxiliaries.

Mrs. Philip Wight of Bath and Mrs. Evander Whitman of Bethel came Monday to attend the funeral of their aunt, Mrs. Charles Pride. Mrs. Wight will remain with her parents, Mr. and Mrs. Eugene Andrews, until Friday.

Walter P. Cullinan has sold the coal business to L. H. Gushman of Norway. Mr. Cullinan will continue to run the wood business.

John J. A. Dubey, born in Orono Dec. 13, 1861, is known in town as Joe Dearborn, as his mother used the name instead of the French name. Joe has worked for the Norway Water Co. many years, but is now working on the highway under Joe King.

Ward 8 is proud of her young men who are in the service, and this symbol of honor is a fact from the hearts of that district, as a slight appreciation to the soldiers ready to stand by "Old Glory."

Auto Street Sprinkler

Timothy Heath has purchased the street sprinkling business of Llewellyn Millett and will start operations after Millett has been made. Only the tank has been secured, this will be mounted on a heavy auto truck and when adjusted the outfit will do more work in less time than heretofore. Probably a helper will be engaged for this work as Tim is busy on larger game.

Sure Sign for Lake Fishermen

"When you hear frogs peep look for the live to leave Lake Penesseewassee," said Charles R. Durham of the Grand Trunk station at South Paris, Charles noted Shorty Cook's ice going out dope.

Shorty Cook is going April 22 between 2 and 3 p. m. for that big annual event. He doubts the truth of that prediction unless Shorty has heard a frog peep near the lake. To back up his claim Charles has observed for forty years conditions at Bryant's Pond, and to his knowledge that lake has not cleared until the shall notice gave the proper warning. "Now you see if I am not right," quoted Charles.

Everyone who has coal next-winter, if it is not watered, is to have to cut around to L. H. Cushman's and sign vouchers for the same. Instructions have been received from the fuel administrator and the first of the vouchers came Saturday so any one who has not signed Saturday is not in time for his coal.

Admiral Mel Sampson, after long deliberation has set April 26 as the day for Lake Penesseewassee to open for fishing. Friend Cook (not Dr. Cook who is camouflaged the North pole fame) is anchored to April 22. This discrepancy is standing without explanation. Frequently clash and master minds fail to call the same phone number.

Several sleighs appeared Saturday afternoon on the snow fall of three inches, but they were retired before noon. Wheels were in general use as the streets soon became muddy, which was our first spell this season.

Robert I. Holt is trimming apple trees on Prof. R. E. Clement's Pike Hill farm. This was formerly the David W. Frost home.

Vivian M. Akers is exhibiting his oil painting "Autumn" at the Paint and Clay Club of New Haven, Conn. whose exhibition is being held at the Yale school of fine arts.

Mrs. Gertrude Libby has been ill during the past two weeks, but slowly improving in health. She is about her home and social duties until her strength returns.

Florence Seethorne has returned from Portland for a short visit with her grandmother, Mrs. Fannie Frost on Paris street. She will also visit her mother in Lewiston. Miss Seethorne graduated April 15 from the Maine Eye and Ear Infirmary, completing with honors the three years' course which includes medical and surgical nursing. After a rest she plans to return to Portland and enter a unit for Red Cross work over seas.

Miss Libby will follow her mother home as graduate nurse in or near the city.

Horace C. Kimball returned Saturday afternoon from Worcester, Mass., where he passed a very enjoyable week with his brother, Frank Kimball. Horace is a patriotic booster having watched the antics of the famous "tank" which did great stunts during the Liberty Loan parade. Mr. Kimball mentions an unusual fact concerning his brother, Frank, who left Bridgton thirty-three years ago. He entered a wire making factory, now a branch of the American Steel works, and has been in their employ since. He also occupies the same rent which he secured after reaching Worcester.

Porter Seavey is having trouble with a snake. The mild weather started him. He spent the winter in Florida and visited several western states, but returned in March as the approaching summer in that section brought on the old rheumatic trouble. Porter improved in health after reaching Maine, but since the snake has disappeared he has gradually faded.

Norway Grammar school has organized a scrappy team which will meet Paris Second Grammar on the grounds at the brick building, South Paris, Friday afternoon.

Diana Wight

Diana Wight died Sunday afternoon, April 14, at the home of her brother, John Wight on Pine street, South Paris. Miss Wight was the daughter of Caleb and Fannie Lary (Burbank) Wight, and was born in Gilead, Oct. 15, 1845. She lived in that town most of her life, but since the removal of her brother, John to South Paris, she has been part of the time with him and part of the time with her sister at Bethel. For years she had been an invalid. She is survived by two brothers John of South Paris and Thomas as of Gilead, N. H. and two sisters, Mrs. B. N. Chapman of South Paris and Mrs. Mina Harriman of Bethel. A private funeral was held at the home, Tuesday, and on Wednesday the remains were taken to Gilead for burial.

Hamlin Lodge, K. of P., will observe the third Sunday in May as Pythian Sunday. Thomas S. Barnes, J. E. Kenney and B. S. Jones will have charge of the arrangements.

Mrs. L. E. Bean and Cora J. Mason and Pauline Mason arrived from Portland, Saturday night to occupy their home here. They have apartments in the Whittey block on Neal street, Portland during the summer.

No services were held in the Deering Memorial church Sunday owing to the absence of Rev. and Mrs. D. F. Faulkner, who were the only delegates from here to attend the Maine Conference at Augusta.

Road Commissioner C. W. Bowker has been cleaning the village streets using the tractor with a trailer upon which the rubbish was shoveled and hauled off.

Eva E. Walker and Mrs. Alta Rankin entertained a ladies' rock party at the home on Pleasant street, Thursday evening, when six tables were filled. The party was for the benefit of the Service League.

DAYS OF
DIZZINESS

Come to Hundreds of Norway People
There are days of dizziness:

Spells of headache, languor, backache;
Sometimes rheumatic pains;
Often urinary disorders.

Doan's Kidney Pills are especially for
kidney ills.

Endorsed in Norway by grateful
friends and neighbors.

Mrs. Mary Gammon 14 Beal St. Nor-
way says, "I have kept Doan's Kidney
Pills on hand for years, in fact, ever since
I first took them nearly ten years ago.

The symptoms I noticed at that time in-
dicated kidney complaint. There was a
dull, heavy ache across the small of my
back and often attacks of dizziness came
over me. Doan's Kidney Pills which I
got from Frank Kimball's Drug Store,
proved fine in relieving me of those
troubles. I take Doan's off and on now
and couldn't wish for anything better to
keep my kidneys in good condition."

Price 60c, at all dealers. Don't simply
ask for a kidney remedy—get Doan's
Kidney Pills—the same that Mrs. Gam-
mon had. Foster-Milburn Co., Mfrs.,

not reach the seat of the disease. Catarth
is a local disease, greatly influenced by con-
ditions, and in order to cure
it you must take an internal remedy such
as Catarth Medicine is taken internally and acts
on the system. Hall's Catarth Medicine was pre-
scribed by one of the best physicians in this
country for years.

It is composed of some
of the best tonics known, combined with some
of the best blood purifiers. The perfect com-
bination of the ingredients in Hall's Catarth

The United States Food Administration Says

Plant a Victory Garden

If you love your native land, put fertilizer on it and seeds into it.

The man with an empty back lot ought not to be permitted to fly Old Glory from the front steps.

We don't want any amateur landscape gardeners this year—we want men of all types to get out and turn over the soil and plant beans, corn, peas, cabbages and tomatoes.

In the name of those boys with the colors, plant a garden.

The care of those gardens must be followed through. Weeds that cut production are pro-German.

Plant a garden and make the other fellow plant one.

We are Headquarters for Fertilizers, Seeds, Garden Tools, Insecticides, and everything for the garden.

Farming for Profits

The year 1918, more than any previous year, marks the progressive farmer's harvest season from his soil. The world is clamoring for his products.

The permanent street is a speedway for autos and horses. Those small signs don't count.

W. S. Cordwell says the post office doors are not left handed, hence the South Paris man is mistaken.

Rake up your back yard the same as you have the front yard as there is great danger of grass fire at this season of the year.

Seventy-three years ago Mr. Peter H. Albee was the official bell ringer for Bethel. So a newspaper in my possession says.

The beans Saturday night were splendid. Ground ginger was baked with them according to instruction given by Miss Zilpha Prince.

Mrs. Bennett, mother-in-law of Bert Melvin, has made a love of a rug for Matt Andersen, who is taking it to the neighbors to show it.

Under the new time schedule wise hens refuse to leave the roost. John Walker says he is to write to Washington to see what can be done about it.

"How did you like the new minister?" "First rate, he preached like a house-a-fire!" Now just what does that expression mean? I give it up.

Won't it be glorious when prohibition covers the earth and the W. O. T. U. can disband? It is surely coming. New Hampshire will be dry after May 1st.

Chas. G. Blake: "He was a most stubborn man and came from Waterford. He ordered a window glass 12 x 14 and refused to take it because it was 14 x 12."

That splendid natural turn came given me by Harry Lovejoy has been stolen. You don't suppose Harry took it because I don't use it when walking on the streets?

If you must keep a dog get one from the ten cent store, as there is less tax on that kind of a dog and your neighbors can sleep better and their flower beds will look better.

Barbershop observation: The foot wear and hosiery of the stylish girl now reaches heights of levitation never attained before as the dresses grow shorter and shorter each year.

Item taken from the Norway Advertiser of 1845: "There is a man in these parts who takes pride in paying his honest debts. His friends are arranging to carry him to the lunatic asylum."

"Long before the European war broke out, each and every town in this country had a Bolsheviki, meaning that each town had a set of men who are known for what they are against, and not for what they are for." Norway is no exception.

Age considered Mrs. Alice Kneeland is the smartest woman in Norway. She has got her spring house cleaning done and is now helping her neighbors. She admits remembering attending her Uncle Zebulon Chabourne's funeral in November 1846.

"Early Impressions. Interestingly told" by Liston P. Evans of Dover, Me., is to appear in this paper in the near future. It is worth your reading. It has to do with an over land journey to Sweden from the cedar growing lands of Piscataquis County. Read it.

Judge Stillwell of Erie, Kansas, sends a picture of a steer owned by W. B. Eddison of Brattleville, I. T. The horns have a spread of 8 feet and 4 inches and the animal seems to be all horns and no body. He resembles some men I've seen who are all moustache and no brains.

Who remembers S. T. 1860? John Woodman remembers 1863 as he learned to write with chalk on the barn door up in Canada. "S. T. 1860" was reputed to be a specially nice brand of St. Croix rum that was extensively advertised in New Hampshire sometimes in the sixties.

Geo. A. Brooks: "I never saw such poor paper as is being used by the Advertiser." As usual George is correct. I solemnly promise never to use any more if a better grade can be got. If it can't, then I'll go out of business. Must use up the stock on hand as paper like sugar is difficult to get.

I had a good deal in Cook's barber shop. Thursday afternoon and Saturday is a closed time on loafers. I recently heard this "That towel on my face" might be hot," growled the patron. "I know it is—it's just as I want it," replied Cook, as he played "The Star Spangled Banner" on his stop.

Ed. Tyler: "Of course, farm products cost more than they used to, for now days a farmer is supposed to know the botanical name of what he is raising, the entomological name of the insect that eats his crop, and the pharmaceutical name of the chemical that will kill it, and that means somebody has got to pay."

Steve Cummings has a new cereal food plant. It is called "Fetoretic" and comes from Africa. He got it as a magazine subscription premium and is much pleased over it. The seeds will be planted a dozen or more and if they flourish a Steve expects the cereal food business of this country will be revolutionized.

Jack, the dog has become sick and is aging fast. Mother is doing all she can to prolong his life and stay on earth. A pink pill is given every two hours and a big black one at bed time and in the morning with a small white one every now and then. It keeps Mother busy and the dog is getting so he likes them.

E. L. Gay is as enthusiastic as ever over black foxes. He called on the writer recently and showed good photos of his stock. He has ten and I reckon they are easily worth that number of thousand dollars. These little black animals live in wire entanglements on the banks of Crooked River at Bolster's Mills. An increase in number is daily expected, but forunately it has been delayed until after fasting time.

The Dover, (N. H.) Enquirer, 73 years ago this spring, said: "The heavy wind of last Friday blew down the great Wingate apple tree on Wm. P. Wingate's farm, Dover Neck Road. This tree from authentic tradition was 200 years old and measured 16 1/2 feet in circumference and has been known to bear 40 bushels of apples per year for a number of years."

One year it bore 60 bushels—and it has averaged 30 bushels per year for 150 years!" Wonder if Dr. Geo. A. Yeaton, orchard demonstrator knows anything about this tree?

Mrs. Marilla Ricker of Boston is to visit me this summer and is going to Laconia, N. H., to see Charles Vaughan, who she says edits the best weekly paper in New Hampshire even though it is Democratic.

I'll be glad to see her here at any time. I hope, however, she is not going to run for office and is coming to ask me to support her as I already have one woman to support and the cost of living is awful high.

Mr. Vaughan can answer for himself. Norway is 48 miles from Portland, change cars at South Paris.

This is one of Vaughan's literary gems that pleases Mrs. Ricker as a concise statement of a present national situation: "You can lose your money to Uncle Sam on a Liberty bond or wait and let Kaiser William come over and take the cash away from you. Bonds or bondage, size up the whole situation."

Kimball-Mason

A very pretty home wedding was solemnized at the home of Mr. and Mrs. Wesley C. Kimball on the evening of April thirteenth, when their son, Lester Wesley Kimball, and Annette Elsie Mason, daughter of Mr. and Mrs. George C. Mason were united in the holy bonds of matrimony by the Rev. J. H. Little, pastor Universalist Church of Bethel.

The bride was attended by Bertha Kimball, a sister of the groom, as maid of honor, and Stella Kimball as ring bearer and flower girl, and the groom by Charles B. Mason, a brother of the bride. The bride was attired in blue tulle and carried a bouquet of bride's roses and white carnations.

The ceremony was performed under an arch of evergreen and the double ring service was used. Relatives of both bride and groom were present. A short reception followed, after which the bride cut the wedding cake and the guests departed after showering the bridal couple with rice and confetti, and offering hearty congratulations and good wishes.

Mr. Pollard of Bethel, scout master of New York, inspected the scout troop here Friday evening in signalling and first aid. Mr. Pollard stated they were the best trained of any he had seen for such a short time of organization. This has been acquired through the able direction of Arthur Stowell.

Organized Red Cross Branch Tuesday afternoon Mrs. Eva Stiles of Bryant's Pond came to organize a Red Cross branch. The meeting was held in the club room with over twenty-five ladies present. The following committee were appointed:

Chairman Work—Mrs. W. H. Crockett.
Entertainment—Mrs. Frank Reed.
Membership—Mrs. W. B. Rand and Mrs. East Partridge.
Press Cor.—Bertha Bartlett.
Meetings are Thursday afternoon and evening.

Mrs. Ralph King and Mrs. Tena Woodsum visited with Mrs. Belle Chase at Auburn the week end.

Mr. and Mrs. Harry Jordan of Bethel were guests at George Tirrell's Sunday to see the sick ones.

Several from here attended the drama and dance at Bryant's Pond, Friday evening.

SOUTH ALBANY
Guy McAllister came from Norway Wednesday and took his automobile back with him to that place as he is at work there.

Mrs. Ernest Browne is spending some time in Portland. Mrs. Browne's mother, Mrs. E. K. Shedd, went with her.

Harold Canwell was sick several days last week with a bad cold and was unable to attend school.

Burt Patterson has been at work for John McAllister cutting wood the past week. Mr. Patterson also helped Herman Holt cut wood, Friday.

Mrs. Jennie McAllister is at work for Mrs. Harry Browne at North Waterford. Mrs. McAllister spent Sunday at her home here.

Verna Kimball visited her friend, Francis McAllister, Saturday.

Mrs. Arthur Millett and children who have been visiting her father, Merritt Savin, for several days the past week, have returned to their home at Waterford. Mr. Millett came after them Saturday, returning Sunday.

E. K. Shedd of Bisbee town was at Merritt Savin's one day last week and bought a calf to make one he had. Mr. Shedd believes in raising steers and he has raised many good ones.

We read the letter from Addison Leff Holt, one of our boys "Over Seas" with a good deal of interest as all of his life was lived a few miles from here and less than a year ago he went to enlist at his country's call. Now he is Corporal Holt one in that great army under the German fire somewhere. For how long no one knows, but he was always a good gunner and we hope he may get a good many Germans and wish him the best of luck when next he goes "over the top."

Harbingers of Spring
All the birds seem to be back in larger numbers than for many years. Crows, robins, bluebirds, sparrows have been here some time. The Phoebe bird was heard Saturday, April 14th, for the first time. The swallow has not yet put in its appearance. The snow covered ground Saturday morning was rather hard on the little fellows, but they were to be seen busily at work wherever there was a spot of grass to be seen and seemed as happy as though there were no such thing as snow.

Sunday night the snow had all disappeared with the exception of some big drifts that are left over from last winter. The grass was springing up green in many places and the birds were holding a real thanksgiving.

An auction will be held at the E. L. Davis place in North Harrison, Saturday, April 20 at 1 o'clock. The auction will include farming tools and household goods.

The Most Wonderful Plant in the World

If a large and thoroughly reliable business concern offered to the public a plant that could be bought in any size, at a price suited to every man's pocketbook, that required absolutely no care, would grow out-of-doors or in the house, summer and winter alike, and was guaranteed to bear twice a year, on stated days for a long term of years, blossoms so highly prized that anybody would accept them in payment for merchandise and service; and if at the end of the period the concern guaranteed to repay the owner his total original cost—such a plant would truly be the most wonderful plant in the world.

The foregoing conditions apply exactly to the terms and advantages of the third issue of the Liberty Loan Bonds. We advise their purchase by every household in the country.

WORTHLESS LANDS IN THE YUMA VALLEY, COLORADO, BECOME VALUABLE

Some years ago, maybe 25, I came into possession of a quarter section of land in the Yuma valley, 84 miles east of Denver, Colorado. The land was four miles from the railroad and "was held down from the government" by Michael Flynn who slept in a sod house the required length of time to get title and mortgage it to me for \$500.00 at 7 per cent.

The land was no good at that time. Insufficient moisture being the cause, and Michael abandoned it and turned it over to me.

Thus matters stood possibly for twenty years. I paid the tax from \$6.00 to \$12.00 per year and once visited it in company with Frank Noyes and viewed at close range its barrenness and desolation on the height of the ridge swept by the winds in all directions as far as the eye could see.

The soil looked good and was nine feet deep and wherever the surface was broken, rank weeds grew to enormous height. There was no house only a slight elevation among the weeds marked the place where the flyns once lived and nearby was a driven well. It was said this well was 150 feet deep and the water was good. I know there has been water in it. I did not test its quality. The wind mill had previously been taken down and for which I got \$50.00 net.

A mile or so off was a settler struggling with draught, poverty, desolation and children, too poor to get away and not quite ready to die. This is about all I saw in the Yuma Valley twenty-five years ago.

The Yuma town had been double-breasted, that is, once had two of a kind except railroad station. Two stores, two hotels, two saloons, two big men, etc.

At the time of my visit only one of a kind was in operation and I experienced difficulty in getting lodging and conveyance to the quarter section I owned. Black dust covered everything even to the bed sheets and you could write your name on the dishes in the dining room. I recall the dust hung in festoons on the broken wall paper and filtered in around the windows in clouds. The winds blew constantly all the time and the moving black dust darkened the sun. This is a fair statement of conditions as I found them in the month of March.

No one was anxious to buy land or seemed willing to accept it as a gift. I then and there made a solemn vow to keep the land until I could get my money back or leave it as a legacy to my heirs.

This was done as a sort of punishment for my foolishness in thinking that the guarantee of the Farmers' Loan and Trust Co. of Kansas was of any good. The guarantee of that company was what caught me. It has caught others too. Many eastern men and banks have been plucked of cash in like manner. The amount of money thus taken from Maine runs into the hundreds of thousands. I personally know of at least fifty thousand dollars that has been contributed to the building up of the South and West and no returns have come to the investors. I make no complaint. But to return to the story.

At one time I came near breaking the vow and accepting \$150.00 and probably would have had not Frank T. True of Council Bluffs, Iowa, happened into the office and told me to hold on.

He said there was value in that land and he had friends who were buying all the land they could get in that section of Colorado. He gave me their names. I wrote them. They looked up my holding and pronounced the prospective value good and said it would pay me to hold it. It so happened that the Lougee Bros. to whom I wrote were school mates of mine at New Hampton, N. H., in 1874.

Thus matters drifted until the spring of 1915 I received an offer of \$10.00 per acre or \$1,500.00 net, \$500.00 in cash and balance on a 5 year 6 per cent. mortgage. I agreed to accept the reverse of these figures. One thousand cash and balance on five years note. It was a bargain and let me out with a little profit.

I wish to state here that Mr. C. F. Salzman who bought the land has paid the note out of the profits of two years' crops with a good margin left.

I'm not sorry. I'm pleased. Glad to know that desolate waste of arid, windswept land has become productive.

In August 1917 I called on Ed Chase, editor of the Plymouth (N. H.) Record, and was given the accustomed local mention in his paper. Shortly after I received a letter from Frank O. Lougee, who by the way hailed from Plymouth, and was a reader of that paper saying he saw I was in his old home town and brought to mind I once owned land in the Yuma Valley, Colorado and if I wanted to sell could get a good price for it. I wrote him I had sold in 1915 and here is what he has to say about the rise in value of Colorado land:

"I have been buying and selling land there for nearly sixteen years, and land that I bought twelve years ago at \$1.50 per acre I am now selling for \$20. per acre, and up. Have sold about 5000 acres in the past eighteen months, and have about 11,000 acres left, which I have taken off the market unless sold for all cash and at top prices.

"Your land was only four miles from Yuma and would bring \$30 per acre today, and still going higher fast. Land close to Yuma raised \$75 worth of wheat to the acre this year.

"In less than ten years and perhaps in five the land out there will bring \$100 per acre or more.

"I have about 2500 acres in cultivation that is leased out on crop rent. I may be down at Portland next year, and will try and see you."

You probably will say I ought to feel like a thirty cent piece, but I don't. I'm glad the land is sold and is valuable. I hope Mr. Salzman will realize two thousand dollars for his wheat from that land this season.

I put the money with some other into an automobile, which is the most expensive convenience I know anything about. I took Frank True and wife up through the Mountains last fall and enjoyed the trip more than owning that desolate waste of black loam.

If Mr. Frank Lougee calls on me this summer and has the time and inclination, I'll take him over the same route and allow him to judge for himself whether I made a good trade or not.

Worth Fighting For

SHALL this little girl grow up in an American home, healthy and happy? Shall she have the advantage of living and learning in a free land, under free institutions? Shall such children develop into the Liberty-loving citizens that a free America may be proud of?

For over two hundred years Americans have fought valiantly, and died gallantly, to win for themselves and hand down to their posterity the blessings of liberty, justice, self-government and equal opportunity. This precious heritage, bought at so great a price, is now in danger.

The question which to-day confronts America as a nation, and you as an individual, is whether or not a free America is worth fighting for

Are American children in this and all future generations to receive unimpaired the legacy of freedom of which we are now the custodians, or shall their country be turned over bodily to the brutal, rapacious, power-mad enemy which has forced us into this war?

This question cannot be answered by word of mouth, but by deeds alone.

INTERESTING NOTES ON GENERAL WASHINGTON

By Henry H. Maxim

When in 1775 General Washington took command of the continental army at Cambridge, Mass., it was a ragged, unkempt, undisciplined rabble, and one day as he was walking towards his headquarters he saw two soldiers fighting, and very quickly, unseen by them, caught one in each hand and bumped their heads together with force that it scattered all thoughts of fighting out of them, then he advised them to combine to fight the common foe instead of squabbling with each other.

Washington from his youth was very much interested in athletic sports and wrestling was the one most enjoyed of any in his time. This was his favorite sport and in his youth he was a champion wrestler. He was six feet, two inches tall and well proportioned.

There formerly lived in the town of Sumner, Maine, an old Revolutionary soldier by the name of Seth Sturtevant. He died in 1852 at the age of 92. Was noted in his younger days as a man of great muscular strength and while in the war there was no man in his regiment that was anywhere near a match for him, and he was ready to try titles with all comers. He sent out a challenge that he would wrestle with any man in the continental army. A time and place was set for the contest and the mighty wrestlers from many different regiments gathered there. Sturtevant was an easy winner through several different matches, when suddenly a man dressed in shabby citizen clothes, with a slouch hat pulled down on his head, stepped into the ring and touched Sturtevant on the shoulder and immediately they got busy. They had wrestled long, before Sturtevant began to realize that he had got hold of a man that was a little more than his match, and he was soon lying on his back on the ground and the mysterious stranger had departed as suddenly as he came. Soon after this event Sturtevant was chosen to serve as one of General Washington's life guards and made a corporal.

Many times Sturtevant related this story to people of Sumner, and always said he truly believed that General Washington in disguise was the man that laid him on his back. Many of the first settlers here almost worshipped Washington, to them he was all that was grand, noble and courageous, everything to admire and revere.

Washington was a true and trusted friend of Mrs. Betsy Ross, and when she was sewing to be done he employed her to do it, including the making of the flag. His kindness to her was manifested in many ways for the reason that she was a widow, whose husband had been a brave soldier and put out a fire which had started in the magazine where munitions of war were stored, but was burned so badly that he died from his injuries. Mrs. Ross had a niece who happened to be there at one time when Washington called and it is said that this niece said to her aunt, "When he stopped here on his way to New York last month, I thought him the grandest man I ever saw. Why! everything and everybody seemed to shrink into insignificance in his presence, and yet he was so courtly and kind to you, Aunt Betsy!"

When Congress met for the first time after Washington had been elected president, he advised those law makers not to vote themselves high salaries, but to render their services more for patriotism than for money. He was of any lofty ideals, and it was his desire that Congress make laws that would best serve the common people. When the financial policy of this country was being discussed in Congress, President Washington had formulated a financial system that had been accepted, would have been the best and fairest for the people of any nation that has ever existed in any nation of the earth. Although he was so honest and true, I think he had as many enemies according to the number of people as Lincoln had, or even Wilson. Countries do not appreciate their great men until they are removed from this life and the people had a chance to think and to realize their greatness.

"O thou Recording Angel! turn to that page whereon is traced, in undimmed brightness, the name of Washington, And, with thy pen immortal, in characters of flame, To stand henceforth and ever, write also Lincoln's name."

The first hurled back the tyrant, in the country's hour of need, The last, divinely guided, hath made her free indeed. Let a nation's grateful tribute to each, alike, be given, While the kingdom, power and glory are ascribed alone to Heaven."

GREENWOOD DOUBLES QUOTA

The town of Greenwood is the first Oxford County town to go over the top in the third Liberty Loan drive. In five days, this town not only has secured its quota of \$4100 subscriptions, but it has doubled it, securing pledges for \$8200 of bonds and is the first town in Maine to make such a record. Arthur Stowell has had charge of the drive here.

MIGHTY OAKS FROM LITTLE ACORNS GROW

It may seem a very little thing to go out and buy a Liberty Bond. But when you buy one Liberty Bond you are doing a great deal more than you think. You are furnishing the Government with money to buy more transports, so that more of our boys can get over to the other side; you are giving our Government money so that it can buy more destroyers and other convoys that our boys may reach there in safety.

The money you invest in Liberty Bonds today will help save our Country and the whole civilized liberty-loving world from the menace of domination by a nation that ravished Belgium and will reduce us to a state of bondage if she wins.

When you buy your Liberty Bond you will have planted your little acorn.

On April 13 an all day session was held by Norway Grange. Meeting called to order by Worthy Master W. O. Perry at 11:15.

Pro tem officers at opening, Overseer C. W. Buck, Steward Will Buck, G. K. Harlan Brown, A. Steward Novell Brown, L. Steward Ruth Holgate.

Later the regular officers filled the chairs. Meeting opened in form, opening song.

Minutes of last meeting read. Communication read in regard to the Red Cross, voted to give the use of the lower hall for the work, free of all cost.

One candidate was elected to membership.

A report for dinner was declared, and the meeting was again called to order at 1:30 p. m.

The expected speakers and organizer of clubs did not appear, and the Girls' Canning Club was organized by the leader of the club of 1917, Minnie L. Upton, who has kindly consented to take the position as leader for 1918 and they are very fortunate to have Miss Upton's efficient, faithful leadership.

Clarence W. Buck, leader of the Boys' Corn Club for 1918 made preliminary arrangements in regard to the club and full arrangements will be made in the near future. A number are on the list, and more to follow.

As this was "Corn and Canning Day" Captain Ada Cox with her assistants, Minnie Haskell and Beryl Russell, arranged the stage decorations accordingly.

The stage at near front was partially screened with white, ornamented with corn in the walls and garlands of yellow.

A peak measure overflowing with fine looking corn in the ear, occupied the center; in front of the screen were cans of corn, garden vegetables, and meat, the whole making a fine showing. Program follows:

Song, "Old Glory" (Whittier) Grange Reading, "Corn" (Somerset) Beryl Russell

Sec.—Stella M. Harwood.

The membership now includes the above, and Winona Young, Hilda V. Russell, Gladys J. Barker, Lucy Witt, Clara F. Harwood, and Doris H. Kilgore. A number more are expected to be enrolled at the next meeting. There is a large degree of interest manifest among the members, and that spells success for the Club.

Boys' Corn Club

Clarence W. Buck, leader. The following are enrolled (complete organization to be made at the next meeting, presumably April 27) Leslie Millett, Bradlee Willis, Albert F. Knightly, Warren F. Knightly, Verne L. Knightly, Albert Penley, Wallace Noyes, Don Delano, Alva L. Richardson, Lester E. Richardson, Geo. W. Young, Fred G. Noble, Asa F. Packard, Harry M. Gordon, Frank C. Veranda Club Notes

On Saturday, May 11 at Norway will be an examination of candidates for Bryn's Pond rural deliveries. Competition open to both sexes.

We know a man who lost an auto tire chain and used a gallon of gas and a half day's time hunting for it. He did not find it. Maybe a few words in the Intelligence Column would have found it.

Who knows?

Mr. and Mrs. Adney Keene left Monday morning for Bristol, N. H., where they will make their home with their daughter, Mrs. Harold Thayer.

John I. Parker of Pasadena, Cal., is visiting his cousin, Dr. H. P. Jones and other relatives in town.

Fire at George W. Holmes'

The department was called shortly after 1 o'clock Wednesday afternoon to a brisk fire in Geo. W. Holmes' house, lower Main street. When discovered the flames had made headway in the wood shed which was a part of the ell and broke through the walls to the stable below. Three streams were playing on the blaze in less than five minutes after the alarm sounded. Luckily the damage was not heavy as the fire was confined to the part of the house where it started, only the shed, pantry, kitchen and stable loft were badly charred. Smoke penetrated the main house but caused no serious damage. Considerable furniture was removed before the building before the danger from a total loss passed. The loss is covered by insurance carried in the St. Louis W. Goodwin agency.

The household goods of Elizabeth and Agnes Beal stored in the stable were more or less damaged by water.

M. Carroll was called on who gave a brief report of the Red Cross meeting which he attended in Boston recently, which showed that the work of the Red Cross was well second in the rank of states, which population considered, was remarkable. Mr. Carroll announced that he would send a check for \$100 to the treasurer of the local Red Cross for the Civilian Relief fund, which they received Thursday.

Carl Perry, married in honor of his birthday, Tuesday the 16th and in honor of the occasion entertained several of

"I'm With You for All I'm Worth"

The man who puts on a uniform and goes to take his place where the fighting is done is with the Government for all he is worth. When man has staked his life he can go no farther in proving his loyalty.

There are many of us who cannot offer our lives in the service of our Country. Nevertheless, we too, can prove that we are with our Government and our Nation for all we are worth.

By purchasing Liberty Bonds to the full extent of our ability we prove our faith in the justice of our cause, we give our support to the men who are going to fight our fight, and we earn for ourselves the satisfaction that can come only through a conscientious performance of duty.

YOU TAKE NO CHANCE

The man who goes to fight necessarily takes a chance. In buying Liberty Bonds you take no chance. Your investment is secure. Liberty Bonds are just as sound as is the money which the Government issues. A Liberty Bond is better, in fact, than money, because the Liberty Bond you buy today may be worth more than its face value when you get ready to cash it in. Money can never be worth more than 100 cents on the dollar.

Don't let another day go by without proving that you are with the forces that are fighting for the preservation of liberty.

Paris Has Spry Old Lady

Mrs. Mary Jane Edwards, well known in South Paris village as one of the most remarkable old ladies of her time, celebrated her 79th birthday, Nov. 23, 1917. Although Mrs. Edwards may not be as spry as she was a few years ago, she still has a great many household duties which she performs daily, besides doing a great deal of sewing. Her hearing is only slightly affected and her eyesight very good.

Mrs. Edwards was born in Otisfield in 1838, on what was known as Scribner Hill and was the daughter of Mr. and Mrs. Seth Winslow.

She acquired her education in the district school of Otisfield. When 19 years of age, in 1857, she married Frank Edwards of Otisfield and they were successful farmers in that town until 1876, when they moved to South Paris into what was the old brick Grange hall, but has since been remodeled into a shoe factory. At the time they lived there it was made into a shoe factory.

From there they moved into the Elmer Haggatt house on Oxford street, then into the cheese factory and in 1880 the homestead was built on Pleasant street, where Mrs. Edwards now lives with one of her sons, Horace Edwards.

Six children were born to Mrs. Edwards, all of whom are living and have homes in South Paris village. The oldest is Mrs. Angie Cutler, aged 59, and the youngest is Vernal Edwards, 40 years old.

She has three grandchildren and three great grandchildren. Mr. and Mrs. Edwards celebrated their golden wedding in 1908. Mr. Edwards passed away in May, 1913. Besides the household duties she performs each day she is a frequent and welcome visitor to her neighbors.

She walks the distance of a mile, spends the day with some of her children, and walks home again at night, and often in the summer walks to the cemetery with flowers and back in the afternoon.

In the fall of 1916 she pared by hand and dried 50 pounds of apples.

During the past two years the following is a partial list of some of the sewing she has done, besides her weekly mending for two families. Put together 15 patchwork quilts and tacked part of them, embroidered seven pairs of pillow slips, drawn and braided several small rugs, embroidered over a dozen fancy handkerchiefs, they were embroidered and had a lace edge. These were given to her children and her grandchildren.

Mrs. Edwards keeps well in touch with the outside world; reads the daily newspapers and is well posted on the current topics of the day. She never rode on a steam train in her life, the only city she has ever been in is Lewiston. She has been there twice in an automobile.

There are four generations in her family. Religiously Mrs. Edwards is a Universalist. She has been blessed with unusual health, which she attributes to her moderate way of living. She is much loved by all who come to know her.

Ava Leach has resigned as clerk in the Z. L. Merchant dry goods store at Norway and closed her long engagement Saturday. She is enjoying a well earned vacation at her home on Church street.

Charles Ripley, who is brakeman on the Grand Trunk, has been spending several days with his mother, Mrs. Ella Ripley.

A stereopticon lecture "The Awakening of the Orient" at the Congregational Church Sunday evening attracted a large attendance. Mrs. Alta Rankin read the interesting lecture which followed the slides. The young people's chorus furnished music.

Carlton M. Gray is manager of the Second Grammar School baseball team recently organized. Harland Abbott is captain with Howard Jackson and Pearl Bennett as the batter. The first game is against the Norway Grammar School next Saturday at Norway.

Scout Master Chester Soule was in charge of the Boy Scouts regular meeting held in Engine House Hall, Monday evening. There was a large attendance with ten new members taking the scout oath. The War Saving Stamp Club has 37 members pledged to purchase stamps to the value of \$100 or more during the year.

Mt. Pleasant Rebekah Lodge held the second demonstration in their contest Friday evening. A large number appeared in costumes of various shades and styles, reading and recitation. Hattie Leach and Mrs. Sophia Clark are the captains who have their forces marshaled for point winners. The next entertainment finishes the contest, the losing side must furnish a supper.

He returned after a few days, but was summoned back and is still at Bethel owing to her serious condition. Fletcher's barber shop was closed Saturday on account of the absence of Mr. Perkins and the illness of Clarence Barker, the other barber employed there, but Mr. Barker is again on the job.

NORWAY AND VICINITY.

Sketch of the New Night Watchman
Charles D. Ruggles is the night watchman. He was born in San Francisco, California, 38 years ago, Jan. 16th. He came east to New York when he was 14 years old and saw snow for the first time. He arrived in the big city March 13, 1864.
His father, David Sanford Ruggles, was a seafaring man and doubled Cape Horn 2 years before the discovery of gold. Charles's mother crossed the continent in an immigrant train, walking, riding, camping and fighting Indians, when she met her husband.
Charles is an excellent wood turner by trade which he learned in Rhode Island. He lived for many years at West Bethel where he did watching and wood turning for A. S. Bean and N. C. Springer. He came to Bethel Hill with Mr. Springer. From there he came to work for "Buyer Brown" at Step Falls.
He has been watchman at the shoe factory and has resided in Norway for the last 11 years. He never married. He is now supposed to keep awake all night and watch out for fires, burglars, stray children and the like.

Hens, Eggs and Wheelbarrows
Charles A. Whitman, who lives near the Oxford line, has 102 R. I. Red hens and for March they averaged to lay a fraction over 40 eggs per day. The average in April up to now (the 16th) is 42 1/2 eggs per day. He sends the eggs to Boston and top notch price for the winter was 67 cents a dozen. He got 40 for the last lot and expects 40 cents for those just delivered to the Express Company.
Charles broke his wheelbarrow and was interviewed while G. Ralph Harriman was mending it. The barrow has seen better days, though it's said to be only ten years old and Charles has used it reasonably decent during that time, but it broke down last Tuesday just as he got almost to his journey's end.

Henry Tucker of Logansport, Ind., a native and former resident of Norway, writes that his son-in-law, Nelson W. Benning, formerly of Logansport, but for the past four years secretary of the Y. M. C. A. at Albuquerque, N. M., has accepted a call to the secretaryship of the big "Y" at Topeka, Kan., and will take charge there June according to a post card received by Henry Tucker. Benning has developed into one of the big Y. M. C. A. secretaries of the western states, his progress having been rapid in his chosen work.

Harry Rust W. B. C. No. 45, will hold a meeting Thursday evening. Following the business session, an old fashioned social will be held. Each member is expected to appear in costume or pay a small fine.

Jim Pledge: "I've been here 32 years and have traded with Charles F. Ridlon for 30 years and he's always used me well."

Harry Jackson has an old dog that has become so deaf you have to make signs to him to have him do anything useful. When Harry's little girl weighed over 60 pounds and the dog only 42, he would draw her in a go-cart over the farm. Harry says an effort will be made to get a level-land-way-out over Turkey Ridge to South Paris using a portion of the Underwitted Road.

Third Draft Coming Soon
Provost Marshall General Crowder has issued another draft call for 49,843 men. Maine must furnish 220. The quota for Oxford County will be about 11. Mobilization dates are between May 1 and May 10.

MEN CAN BE FURLOUGHED

Congress has enacted a law which will enable certain men now in mobilization camps to be furloughed for short periods, largely for seeding and harvesting time, for the purpose of augmenting the agricultural production.

Local boards will receive the application from the farmers on a regulation form which will be furnished the farmer on his application to the Local Board for furlough. When the form is filled out by the farmer he will return it to the Local Board who will then forward it to the camp where the soldier is located.

Whether the men are to be released or not is entirely up to the camp authorities. The Local Boards have no power. Local Boards are not authorized to issue transportation for such men to return from mobilization or other military camps or to return to military duty when their work is accomplished.

His leading man, character man and juvenile have all been ordered into the service and one of the girl members has been obliged to return home on account of an only brother entering the service. In spite of all that, which has postponed the opening of the Boston Comedy Company, Price is hard at work after new members and will unless again upset open May 2 at Wisconsin.

Plant seeds and grow bullets. Impossible, you say? Not at all. The great day of the allied forces on the front today is ample supply of food. The need of the allied nations is food. Without it the war would prove a failure, it matters not how many bullets we mold and send across. Food and more food is the cry of the world. Hunger is the enemy of the soldier. Soldiers can have no heart for fighting, and ours must fight this war to a finish. Raise something to eat.

The club women of the country have stepped into the breach and will do their "bit" toward winning the war by advocating women from fashion's rule. They want it understood that "it is no longer fashionable to be stylish." This is a sensible decision, and they might add that it is no longer sensible nor patriotic to be stylish.

In another column is an announcement where Walter P. Cullinan has sold the coal business to L. H. Cushman of Norway. See announcement.

Marvelous Story of Woman's Change from Weakness to Strength by Taking Druggist's Advice.

Peru, Ind.—"I suffered from a displacement with backache and dragging down pains so badly that at times I could not be on my feet and it did not seem as though I could stand it. I tried different medicines without any benefit and several doctors told me nothing but an operation would do me any good. My druggist told me of Lydia E. Pinkham's Vegetable Compound. I took it with the result that I am now well and strong. I get up in the morning at about 6 o'clock, do my housework, then go to a factory and work all day, come home and get supper and feel good. I don't know how many of my friends I have told what Lydia E. Pinkham's Vegetable Compound has done for me."

OTISFIELD

Ice Fishing
Our noted fisherman of Spurr's Corner, Wyatt T. Edwards, says this about his fishing on Thompson pond: "This has been the best winter I ever knew; there has been plenty of ice and a good chance to fish, but few fish."

He thinks he has caught fish through the ice the most number of years of any man now living around Thompson pond, as this is his 67th winter and he bids fair for another. He began fishing when a small lad in the days when togs were much more plentiful than now. In those days it was a common thing to catch a large number of togs and sell them at the stores. Occasionally there was a man who spent his whole winter at this occupation, which combined business with pleasure.

It is said of one of Otisfield's fishermen that he fished in the same holes every winter. Late years it has required more and more patience and skill, as the fish apparently are not as numerous as of more years. One of Mr. Edwards' sayings about fishing is, "I always left off fishing before all my courage was gone."

Once, however, it was nearly gone when he fished fourteen (14) days in succession with "no bites." This required no patience than most of us are gifted with.

Away with the one who splits his wood fine and leaves no coarse sticks to put on to hold the fire. The coarse sticks should always be on hand, lest the small sticks being handy be put on the fire when large sticks should be used. Get the backing habit. In olden days it was placed back of the fire in the fireplace. Now you put it on the back side of your range firebox, a sizable chunk, small sticks in front, and lighting a fire it gets into the chunk which lights and by and by is moved forward and another chunk put in back of it. Get the habit, because this burning all fine-split wood uses up the fuel the same as if it were paper. We want to save fuel.

FARMERS' SPRING CIRCULAR, 1918

The winter has been a hard one, and many animals, being in poor condition, need special care. Mange is very prevalent in New England. A thorough use of vinegar will cure it, and stalls, blankets, harness, etc., should be disinfected. Do not fail to provide clean, warm quarters in which your cows, ewes and mares can bring forth their young. Naval ill comes from dirt.

It is dangerous to expose young stock, especially foals and colts, to spring rainstorms. A day's exposure, if not fatal, may stop a month's growth.

It is bad policy to turn the stock to pasture before the grass has well started, —bad for the pasture and bad for the stock.

A gradual change from hay to grass is best; but, if you are bound to make the change at once, turn the stock out at night, and not lie down until the sun has warmed the air and the ground.

Get your horses into condition for the hard spring work—the young horses especially. Many a colt has been ruined by being put to hard work without preparation. It is the same with green horses.

Look out for sore shoulders and backs, especially in plowing. Be sure that your collars fit. A collar too big is as bad as one too small. If the collar rides up, use a martingale, or a girth running from trace to trace, back of the forelegs.

When the horses are to work on a warm day, lift up the collars now and then to cool their shoulders, and wipe off the sweat and dirt with a bunch of grass.

Wipe off the harness marks on your horses when you stop work at noon and at night, and clean the inside of the harness, the collars especially. The salt sweat, drying on the skin and on the harness, is what makes the trouble.

If the skin is wrinkled under the collar or saddle, bathe it with witchhazel. If the skin is broken, bathe it with clean warm water containing a little salt. Fix the collar, with padding or otherwise, so that it will not touch the sore spot the next day. A little carelessness at the beginning may cause a lot of trouble to you and suffering to the horse.

Clean your horses at night, water them, give them a good bed, and water them again after they have eaten their hay. Let them rest an hour or more before they are grainfed. The observance of these simple rules will not cost you a cent, and will make a big difference in their condition.

This is to Give Notice

On April 30, 1918, we shall close our doors for the last time on the CREDIT system, and May 1st will open on a CASH basis.

We feel compelled to do this for the reason all the manufacturing interests of the country have gone onto a cash basis.

All machinery at the time of sale must be settled for in cash or a good bankable note. All repairs will be cash. Repairs ordered by mail or telephone will receive prompt attention and be sent C. O. D.

This step has been taken after long and careful consideration and is the only way we can see out of the present situation.

We hope and trust this change will meet the approval of our friends and patrons, who in the past have given us their patronage, and to whom we feel very grateful.

We believe that the change will be of great advantage both to ourselves and our customers, for we certainly can give you more value for your money than we can on the old system.

What Will Be YOUR ANSWER?

THE TUSCANIA LIES AT THE BOTTOM OF THE OCEAN, A VICTIM OF GERMAN RUTHLESSNESS. With her are some of our boys who have given their lives that you and I here at home may be safe.

The hundred odd lives have gone forever—nothing that we can give can in any way atone for what they have given.

But we can do SOMETHING. It may not be much, but what we CAN do we MUST do. Germany has slapped our face. She has said to us, "You cannot cross the ocean with your men. You cannot fight us because you cannot reach us." And now she is waiting for our answer. What will it be? Are we going to sit here and simply sigh and say how sorry we are, or are we going to act?

Those who know America will realize that every man, woman and child is going to join in an answer that can be heard from one end of Germany to the other—an answer so clear, so strong and so true that it may have a far greater effect than any of us can imagine on Germany's future policy.

LET THIS BE OUR ANSWER—let every man, woman and child in this great land of ours, go out today and buy Liberty Bonds. Let's show Germany that instead of undermining our morale, a catastrophe like this only stirs us to action.

Let your answer be a Liberty Bond.
